

A Report on Project works undertaken as a part of course curriculum on subject 'Education' with Paper Code-SEC-1:

Education is a *rewarding subject* area where one learns how to share one's knowledge and help shape the future of the coming generations. The utility of Education as a subject can be thought of ,in the transmission of the values and accumulated knowledge of a society.

The Department of Education at A.B.N. Seal College offering a three years degree course under CBCS system, motivates students to undertake a project work, as a part of course curriculum at 3rd semester in Paper with Paper code: SEC-1. The topic of the project being 'School Based Activity' for which the students made visits to schools to understand about the overall mode of operation of a school, within a community set up. The process enabled evaluation of the relationship between school-based activities and students' development.
